

THE WORLD TO YOUR DOOR

CLASSIC TRUCK BODIES

PEKI CLASSIC

The Peki truck body range completes the final mile from distribution centre to end user, bringing the world to your door. It's a body you can rely on, because it's backed by Australia's largest semi-trailer manufacturer.

Suitable to operators looking for a premium customised transport solution, Peki Classic offers the widest range of options that can be engineered to suit your specific transport task. From refrigerated meat hangers to mobile libraries, the design possibility of the Peki Classic is practically endless. Importantly, the Peki Classic is optimised for durability and performance to deliver the best returns for your business.

BENEFITS

Backed by the MaxiTRANS Dealer Network - now you can have a truck body with the support that your business expects and demands. In combination with MaxiPARTS, MaxiTRANS lays claim to a network of over 30 parts and service locations around Australia, increasing your uptime and profitability. Here for you today and into the future, Peki is the truck body you can trust.

Optimal thermal performance - Peki insulation panels are engineered and designed to suit the vehicle dimensions, via our unique in-house urethane foam process. This process improves thermal performance by producing panels to the required thickness without the need to cut and degrade important surface cells.

Tailored solutions - with direct access to an experienced team of engineers, our Peki specialists will work with you to understand your business in detail before tailoring a solution specific to your transport task, optimising your efficiency for maximum return.

Exceptional quality - standard features such as a galvanised sub frame and door frame provide optimum protection against corrosion. When combined with our profiled polished extrusions, Peki Classic truck bodies represent the ultimate in quality, durability and appearance.

Easy fitment and maintenance - all Peki Classic truck bodies are designed with a multi-fit chassis runner for fast installation to all truck makes and models. Additionally, the inclusion of many modular components allows them to be easily removed or replaced if damaged, maximising uptime.

Two-year warranty - all Peki truck bodies are supported by a two-year manufacturer's warranty.

AUSTRALIA'S LARGEST SUPPORT NETWORK

The MaxiTRANS Dealer Network is part of what separates Peki from all other truck body manufacturers.

Located across Australia and New Zealand, MaxiTRANS Dealers are trained to provide customers with the best end-to-end transport solution for your business via expert pre and post-sale advice.

All MaxiTRANS Dealers have the benefit of factory training and access to the latest technical information to ensure your truck body is specified with exactly the right components to suit your freight task. Direct links to the factory means that they are also the experts when it comes to servicing, parts and repairs.

In addition, our network of MaxiPARTS stores provides further genuine parts support, with 20,000+ product lines distributed via over 20 retail and wholesale facilities strategically located throughout Australia.

Visit peki.com.au to find your nearest dealer and complete your final mile solution.
